Description:

The bible on self-publishing. Highly recommended by virtually everyone in the industry -- even other authors of books on the subject (many of whom probably followed the advice in Poynter's previous 11 editions). --This text refers to an out of print or unavailable edition of this title.

Review Now in it's 9th revised edition, Dan Poynter's The Self-Publishing Manual is the seminal, benchmark publication which is "must" reading for anyone contemplating publishing a book. All the necessary questions are answered, all the "tips, tricks &

techniques" for successfully publishing a quality title are laid out step-by-step using a very methodical system for producing a commercially-successful book beginning with applying the simple organizational plan to research your subject and put your thoughts down on paper. The publishing information will enable you to get your book into print quickly and easily by going direct and cutting out the middlemen, including getting the copyright for your own book, setting up your own publishing company, and benefiting from the tax breaks. Equally important is learning the secrets of low-cost book promotion, the (sometimes shocking) facts about advertising, setting up a distribution system, promoting your book with feature articles and radio/television interviews, spinning off electronic editions (including selling your information on-line and on CD-ROM). No one should venture into publishing without a thorough reading of *The Self-Publishing Manual*, and even then, keeping it within arm's reach for continual reference at every step of the publishing project. -- *Midwest Book Review*

One of the best how-to-do-it books. -- *Money Magazine*

This is the first book I recommend to those considering becoming a publisher. -- *Jan Nathan, Executive Director Publishers Marketing Association* --This text refers to an out of print or unavailable edition of this title.

This (self-published) guide to "self publishing", updated in 2005, really caters to that special audience of authors who not only want to get published without going to a major commercial publishing house, but want to exert control over the entire writing-to-publishing-to-selling process. According to the author of this book, the first edition was written back in the 70s, and a lot of the content seems to reflect that. This isn't a book wrapped up in publishing industry speak, it is a plain talking guide on how to plan, write, publish and sell your masterpiece. Poynter does not tell you what to do but suggests what you can do to become an author. With over thirty years as a self publisher, and with hundreds of titles available it makes sense to learn from an expert. The Self-Publishing Manual, more effectively and successfully than any other book, has turned writers with an idea into successful authors with books. Real books. Books to be proud of. How? This book is designed to provide information on writing, publishing, marketing, promoting and distributing books. It is sold with the understanding that the publisher and author are not engaged in rendering legal, accounting or other professional services. If legal or other expert assistance is required, the services of a competent professional should be sought. It is not the purpose of this manual to reprint all the information that is otherwise available to authors and/or publishers, but instead to complement, amplify and supplement other texts. If you're looking for a way to self-publish your own book on the Kindle, it's surprisingly simple. Read more.

Advertisement. If you want to see your book in print, CreateSpace (owned by Amazon) has a great print-on-demand service. If you want to publish a print edition of your book, you'll eventually have to get an ISBN assigned to the title, but it costs money. The American ISBN provider is Bowker. Advertisement. If you're passionate about writing, self-publishing is an opportunity to practice your craft and publish your work. For many new authors, it's a rewarding feeling to connect with readers and earn a little money. Success may come down the road, but don't give up your day job yet. How to Self-Publish a Book. Want to Learn More About Writing? David Mamet Teaches Dramatic Writing David Mamet Teaches Dramatic Writing. Self-publishing is when an author decides to print and distribute their own work themselves—usually through a self-publishing platform—bypassing traditional publishing companies. Working through a publishing house has its advantages—they know the ins and outs of the publishing industry, what booksellers and readers want, the best strategies for book marketing—however, self-publishing provides you with the ultimate freedom and control over your own creative work. 3 Advantages of Self-Publishing. Since you're in charge of how your book hits the market, you control how much it sells for.

(Self Publishing Manual). 475 Pages · 2007 · 4.71 MB · 14,124 Downloads · English. by Dan Poynter. · How To Self-Publish Amazon Kindle eBooks That Actually Sell · Don't Waste Your Time Writing a Book That Nobody Buys · Are y How to Write & Sell Simple Information for Fun and Profit: Your Guide to Writing and Publishing Books, E-Books, Articles, Special Reports, Audio Programs, DVDs, and Other How-To Content. 396 Pages · 2010 · 2.5 MB · 15,272 Downloads · New! Packed with income-generating ideas about creating a variety of saleable written works, this guide includes information Creative Writing: How to unlock your imagination, develop your writing skills - and get published. 194 Pages · 2007 · 697 KB · 55,834 Downloads · New! If you're self-publishing a book, this article could save you a lot of time, money, and frustration! It shares our experience using IngramSpark, Lulu, Blurb, BookBaby and Amazon's KDP. · This part is about how to get your book printed, and demystifying print-on-demand services. Please don't be scared by the length of this article. · As you'd be selling the books yourself, you can create your own bespoke storefront, which can be more profitable, you have more marketing tools at your disposal, and you get valuable data you can use to sell more books (I'll go into all of this later in this series) . The downside is it's a big investment to print a large inventory of books upfront, it's risky (you might not sell all the books), and packing and posting hundreds of books is a lot of work ! So just how do you go about selling your book to independent bookstores? Much as writing books is a passion and business for authors, selling books is a passion and the only business for independent booksellers. · Indie bookstores are community hotspots · supporting the local community, creating publishing programs, publishing and selling their own unique content, and hosting author events. · It's one of your jobs as a self-publisher to figure out how people will actually discover your book, and if your book is labeled or packaged so uniquely that the bookstore doesn't know where to put it on the shelf, then you're just creating difficulty for yourself. Booksellers aren't interested in books that stick out for the wrong reasons.
