Each of the available areas to hunt has their own individual regions, distinct landmarks, and points of interest. These vast ranges of land can be explored and hunted equally, either by yourself or as part of a team of up to 8 players in multiplayer. In multiplayer, session-wide competitions can be started to further increase the social aspect of hunting. The game is focused on tracking, stalking, and harvesting animals with the weapons the player starts off with or has earned. Animals can be tracked via their footprints, droppings, vocal calls, and eating or other "need zones" such as drinking and bedding areas. Night hunting is also possible in-game and is essential to hunting some species effectively. Call of the Wild offers unique multiplayer options for up to 8 players. Steady your aim at the shooting range, drive ATVs, team up with other hunters and earn those bragging rights! Included with Xbox Game Pass Ultimate. The vast world of theHunter: Call of the Wild is split up into separate and distinct hunting reserves, each one filled with surprises and memorable moments.
