The Science of Nature, formerly Naturwissenschaften, is a monthly peer-reviewed scientific journal published by Springer Science+Business Media covering all aspects of the natural sciences relating to questions of biological significance. It was founded in 1913 and intended as a German-language equivalent of the English-language journal Nature, at a time when German was still a dominant language of the natural sciences. The journal is now published in English. Allgemeine Tasehenbibliothek der Naturwissenschaften book. Read reviews from world's largest community for readers. This work has been selected by scholar Start by marking "Allgemeine Tasehenbibliothek der Naturwissenschaften: Anthropologie." as Want to Read: Want to Read saving | Want to Read. Naturwissenschaften, now known as The Science of Nature, is an active peer-reviewed scientific journal published bimonthly by Springer. Founded in 1913 by German physicist Arnold Berliner (1862–1942), it acquired its current name in 2015. Intended as a German-language equivalent of the...
