This is the current edition of the List, updated to include all films in all editions of the 1001 Book, including films culled to make way for newer releases. Some foreign films are listed with multiple titles, in English with the original language title in parenthesis. Any films currently with wiki pages will have links. The order of the list is based upon the 2015 edition of the 1,001 Movies book, with the films removed from earlier editions being placed at the end of their respective years. It contains a list of movies that are considered "must-see". Because of these updates, there have been more than 1001 movies in total in it (but always 1001 in any given edition, as there are the same number of entries added as removed each edition). As of the 2020 edition, a total of 1235 movies have been included in the English-language version. The book has also been translated to several other languages, and those editions replace some of the entries with local films (Swedish films in the Swedish edition, and so on). Advertisement: The book eschews True Art Is Angsty and True Art Is Incomprehensible, featuring films like Babe, Booksmart and The Princess Bride alongside the likes of Un Chien Andalou, Persona, and Dancer in the Dark. 1001 Albums You Must Hear Before You Die: Revised and Updated Edition.
