

able on the basis of existing knowledge, but they suffice to show that the present continent is an aggregation of land masses which, from time to time, have been forced into union with one another. This study of Asia has been carried on with comparative studies of North America and Europe, and has led to theoretical views regarding continental structure and development which have a broad application. They are briefly stated in a closing chapter.

### PUBLICATIONS RECEIVED.

Direct and Alternating Current Manual, with Directions for Testing and a Discussion of the Theory of Electrical Apparatus. By Frederick Bedell, Ph.D., assisted by Clarence A. Pierce, Ph.D. 360 pages, illustrations, 8vo. New York, D. Van Nostrand Co., 1911. Price, \$2 net.

A pocket medical dictionary, giving the pronunciation and definition of the principal words used in medicine and the collateral sciences, including very complete tables of the arteries, muscles, nerves, bacteria, bacilli, micrococci, spirilla and thermometric scales, . . . . By George M. Gould, A.M., M.D. Sixth edition, revised and enlarged. 1005 pages, 16mo. Philadelphia, P. Blakiston's Son & Co., 1911. Price, in leather, \$1 net.

The Technical Analysis of Brass and the Non-ferrous Alloys. By William Benham Price and Richard K. Meade. First edition. 267 pages, illustrations, 12mo. New York, John Wiley & Sons, 1911. Price, \$2 net.

Electro-analysis. By Edgar F. Smith, Blanchard Professor of Chemistry, University of Pennsylvania. Fifth edition, revised and enlarged. 332 pages, illustrations, 12mo. Philadelphia, P. Blakiston's Son & Co., 1911. Price, in leather, \$2.50 net.

Essai sur une méthode de comptabilité des chemins de fer par Gustave Pereire. Première partie. 132 pages, quarto. Paris, Gauthier-Villars, 1911.

University of Illinois Bulletin. Water Survey Series No. 8. Chemical and Biological Survey of the Waters of Illinois. Report for 1909 and 1910. Edward Bartow, Director. 148 pages, illustrations, maps, 8vo. Urbana, University, 1911.

Ontario Bureau of Mines. Twentieth annual report, 1911, being volume xx, part I. 301 pages, illustrations, plates, maps, 8vo. Toronto, King's printer, 1911.

Instructions for Experiments in Laboratory for Testing Materials, Purdue University. By W. Kendrick Hatt, professor of civil engineering and director of laboratory for testing materials, and H. H. Schofield, assistant professor in laboratory for testing materials. 72 pages, illustrations, 8vo. Lafayette, Ind. Authors, 1911.

U. S. Department of Agriculture, Forest Service, Bulletin 99. Use of Commercial Woods of the United States: II. Pines. By William L. Hall, assistant forester, and Hu Maxwell, expert. 96 pages, 8vo. Washington, Government Printing Office, 1911.

Multiplex Telephony and Telegraphy by Means of Electric Waves Guided by Wires. By George O. Squier. A paper presented at the 28th

Annual Convention of the American Institute of Electrical Engineers, Chicago, Ill., June 28, 1911. 48 pages, illustrations, 8vo. Reprinted from the Proceedings for May, 1911.

American Mining Congress, October 24-28. Announcement of meeting, programme and speakers. 30 pages, illustrations, 8vo. Chicago, 1911.

National Association of Cotton Manufacturers. Fourteen pamphlets, advance copies of papers presented at the semi-annual meeting held at Manchester, Vt., September 27-30, 1911. Boston, Association, 1911.

North Carolina Geological and Economic Survey. Economic Paper No. 22. Forest fires and their prevention, including forest fires in North Carolina during 1910. By J. S. Holmes, forester. 48 pages, 8vo. Raleigh, State printers, 1911.

U. S. Geological Survey. Water Supply Paper 239. The quality of the surface waters of Illinois. By W. D. Collins. Prepared in coöperation with the Illinois State Water Survey, the Illinois State Geological Survey, and the Engineering Experiment Station of the University of Illinois. 94 pages, plates, maps, 8vo. Washington, Government Printing Office, 1910.

Pennsylvania State College Bulletin. Winter Courses in Agriculture. 15 pages, illustrations, 8vo. State College, 1911.

U. S. Bureau of Standards. Circular No. 8. Testing of Thermometers. Second edition, revised and enlarged. 52 pages, illustrations, 8vo. Reprint No. 149. On the Constancy of the Sulphur Boiling Point. By C. W. Waidner, physicist, and G. K. Burgess, associate physicist. 4 pages, 8vo. Washington, Government, 1910-11.

State Employers' Liability (or Workmen's Compensation) Insurance. By Edson S. Lott, president, United States Casualty Company, New York. Read before the Liability Insurance Association at its annual meeting, Hotel Astor, New York, October 19, 1911. 15 pages, 8vo.

Electrical engineering is an engineering discipline concerned with the study, design and application of equipment, devices and systems which use electricity, electronics, and electromagnetism. It emerged as an identifiable occupation in the latter half of the 19th century after commercialization of the electric telegraph, the telephone, and electrical power generation, distribution and use. Alan Durkata - The Imperial Russian Air Service: Famous Pilots and Aircraft of World War I Jean MacIntosh Turfa, "The Etruscan World" Frisians and Their North Sea Neighbours : From the Fifth Century to the Viking Age The Sea Peoples. Warriors of the Ancient Mediterranean (1250-1150 BC) Mimi and Toutou Go Forth: The Bizarre Battle Of Lake Tanganyika. Ocr. ABBYY FineReader 8.0. Page-progression. Ir. Pages. 114.
