Published 2000. â€˜Psychological Contract Inventory â€™ Technical Reportâ€™™. Appendix II â€˜ 2Ã—2 Model of the Psychological Contract, A Framework of Terms. Transactional and relational terms are fundamental components of most employment contracts. Rousseau proposed a 2Ã—2 model of contemporary psychological contracts which includes the transactional and relational contracts mentioned above. A psychological contract, a concept developed in contemporary research by organizational scholar Denise Rousseau, represents the mutual beliefs, perceptions and informal obligations between an employer and an employee. It sets the dynamics for the relationship and defines the detailed practicality of the work to be done. It is distinguishable from the formal written contract of employment which, for the most part, only identifies mutual duties and responsibilities in a generalized form.
